Any questions regarding the evaluation of courses, either before or after enrollment, should be directed to the Office of Transfer Admission.

At Boston College, transfer credit is established on a course-by-course basis.

AUIA国际暑期学校
AUIA International Summer School

306, #88 ZHENGXUE ROAD,
YANGPU, SHANGHAI, CHINA

Transferable courses must have been completed at regionally accredited colleges or universities and must be similar in content, depth, and breadth to courses taught at Boston College. In addition, a minimum grade of C must have been earned.

The unit of credit at Boston College is the semester hour. Most courses earn three semester hours of credit; lab sciences usually earn four semester hours of credit. .

Grade point averages do not transfer with students. A new GPA begins with the commencement of a student career at the University, and reflects only work completed as a full-time undergraduate at Boston College.

Courses taken during the summer prior to enrollment at Boston College must be approved in advance by the Office of Transfer Admission. After enrollment at Boston College, all summer courses must be approved in advance by the appropriate academic Dean.

RESIDENCY REQUIREMENT

Students must spend four semesters in the full-time day program and complete a minimum of 60 credit hours at Boston College in order to be eligible for the degree. Courses taken in the Woods College of Advancing Studies or during the Summer Session may not be applied toward the four-semester minimum residency requirement.

Boston College officials believe the undergraduate college experience should be a four-year endeavor. Students are not normally permitted to accelerate their graduation terms by overloading or through summer coursework. Therefore, students may not accelerate the date of graduation stated in the acceptance letter.

If students have attended only one school prior to Boston College, and the loss of graduation status is due solely to differences between academic systems, they will be allowed to make up their status and graduate with their class. Any loss incurred or negatively affected by unacceptable grades, failures, or withdrawals may not be regained.
